THE FRANKLIN MINT

FRANKLIN CENTER, PENNSYLVANIA 19001

Dear Collector:

For the first time, the flags of fifty of the greatest monarchs of history will be depicted in precious metal.

And I am pleased to tell you that the artists and craftsmen of The Franklin Mint will create a complete collection portraying these magnificent flags -- in the form of solid sterling silver ingots.

Each ingot in this unique collection will bear the precise design of the royal flag it represents. And even the shapes and proportions will vary -- making this a most impressive and authentic collection of official flag ingots.

Included in the collection are bold and inspiring flags that were carried into battle by great armies. Flags that flew proudly atop royal palaces. Flags that stirred whole nations and in a sense changed the very course of world history.

And the monarchs represented by many of these flags were among the most famous -- and infamous -- in the history of mankind. Charlemagne. Genghis Khan. Peter the Great. William the Conqueror. Ivan the Terrible. Catherine the Great. Napoleon Bonaparte. Emperor Franz Joseph ... and others whose deeds affected the destiny of millions.

The ingots portraying these flags are works of art in their own right, as well as being historically accurate. Each ingot has been authenticated by Dr. Whitney Smith -- Director of the Flag Heritage Foundation, and the world's leading authority on flag history -- who has described The Flags of Royalty as "the most extraordinary collection of its kind ever created."

I suggest that you examine the accompanying brochure which includes illustrations of several of The Flags of Royalty ingots. I think you'll agree they are extremely handsome, and that the complete set of fifty will make a fascinating collection to own and enjoy -- and to keep in your family as a true heirloom.

Please note that The Flags of Royalty collection is being issued in strictly limited edition, and that your application for a complete Proof Set must be postmarked by March 25, 1977 to be accepted. Therefore, be sure to mail the enclosed subscription application no later than that date.

Sincerely,

Brian G. Harrison
President
